

ARRAZUNA

NESTLED AMIDST UNTOUCHED MOUNTAINS, FORESTS AND A NETWORK OF HIGHWAYS, GUDGMAN WESTLUND UNFOLDS AS A FIRST-OF-ITS-KIND BENCHMARK FOR MODERN, SUSTAINABLE LOGISTICS CENTRES. USABILITY, FLEXIBILITY AND INTEGRITY FORM THE BEDROCK OF THIS EXPERIENCE, CATERING TO A DIVERSE DEMOGRAPHIC OF USERS, INCLUDING TENANTS, OFFICE EXECUTIVES, TRUCK DRIVERS AND VISITORS.

ORGANISED SYSTEMS ARE THE ESSENCE OF LOGISTICS. BY EXCAVATING AND REPURPOSING THE LOCAL BIOSPHERE, WE CREATED A SYSTEM THAT HARMONISES MULTIPLE LAYERS WITHIN THE INTERIOR. WOOD REBIRTHS AS STRUCTURES AND FURNITURE; SOIL AND MINERALS FROM THE LAND TRANSFORM INTO TERRAZZO AND STUCCO THAT GLASS FLOORS AND WALLS. STRIKING A DELICATE BALANCE BETWEEN INDUSTRY AND NATURE, THE RESULT IS A LIVING WORKSPACE THAT RESPECTS THE CHERISHED ENVIRONMENT WE CALL HOME.

HINTING AT CROWN SHYNESS – A FASCINATING PHENOMENON WHERE TREE CROWNS DELICATELY AVOID TOUCHING – THE GREENROOF'S IDENTITY SYMBOLISES A CANOPY OF INTERTWINING PATHS THAT MERGE BACK INTO THE SURROUNDING NATURE, CREATING AN UNINTERRUPTED FLOW.
